

# HELPING PEOPLE THRIVE

Because we believe that every person has value and should be treated with respect, all our Champions at Vivent Health are dedicated to delivering the best possible services for the record number of people who trust us with their care. It's our dedication to quality that has led to a 10% increase in the number of our patients who are achieving viral suppression, among the best clinical outcomes in the country in recent years. We work with each patient to not only survive, but thrive, so they can live their best life. Achieving viral suppression ensures people living with HIV can live long, healthy lives, and that HIV can not be transmitted to others.

*"I did leave Vivent Health once, but only to find out that the services here exceeded my expectations more than any other place...and when I came back I was welcomed with open arms."*

- DENVER PATIENT

## VIRAL SUPPRESSION AMONG OUR PATIENTS:
